

OLD LAUND BOOTH PARISH COUNCIL

Asset Register Statement

At present, the Parish Council does not hold a complete Asset Register.

This is due to the fact that no formal register or supporting documentation was provided by the previous Clerk. It was also formally acknowledged in the Parish Council meeting held on 17th June 2026 that historic records relating to council assets was destroyed.

As a result, the Council is reconstructing its Asset Register using available information and physical verification of assets. This work is ongoing and will ensure compliance with audit requirements and proper financial management going forward.

The Council is committed to transparency and good financial management and will publish the completed Asset Register once available.
